The EPA should care about our economy and jobs and the environment

If, under the EPA plan, the river cleanup were to lead to higher expenses for harbor companies and higher costs for consumers, that would mean a big hit on our economy. We do need a river cleanup but I hope that you'll also consider the costs to our economy.

Thanks for all you're doing to protect our river. It means a lot to people who live, work and play there.

Sincerely,
